

Technical Specifications

CA 1550

- Width: 1,50 m Roll Weight 20 Kg
- Roll length: 72,6 m
- 109 Sqm per Roll,
- Absorption: 5 litres per Sqm

CA 1432

- Width: 1,425 m, Roll Weight 20 Kg
- Roll length: 60 meters
- 85,5 sqm per Roll
- Absorption: 3 litres per Sqm

MVA Absorbant Matt is used as an underlayer for so called “wet freight” like meat and fish or cattle transport. The absorption is 3 to 5 liters per square meter. The purpose is to keep the aircraft belly’s, pallets and containers dry and clean. The material is recyclable.

The absorption material must be sufficient quantity to absorb the entire contents of the primary receptacle(s) so that any release of the liquid substance will not compromise the integrity of the rest of the packaging.
